Brief History

Since its establishment by an Executive Order of Governor Richard Riley in 1980, the South Carolina Governor’s School for the Arts and Humanities has provided pre-professional training in the literary, visual and performing arts for the state’s artistically talented students. The school now serves hundreds of students each year through the Academy, Arts Odyssey, Summer Dance and Residential High School programs.

Mission

The mission of the South Carolina Governor’s School for the Arts and Humanities is to serve artistically gifted high school students of South Carolina through programs of pre-professional instruction in an environment of artistic and academic excellence. The school is a resource for all teachers and students in South Carolina.
Summer Programs

**Arts Odyssey** is a one-week, overnight program for rising eighth and ninth grade students interested in concentrating in Creative Writing, Drama, Music, or Visual Arts. In addition to working intensely in their art area, students are also exposed to the other art areas with opportunities to attend performances and guest lectures.

**The Academy Program** was established in 1990 as part of the school’s award-winning Outreach program that serves rising tenth grade students from across the state. This is a two-week, overnight program for students who desire intensive training in Creative Writing, Drama, Music, or Visual Arts. The curriculum incorporates studio work, self-directed studies, performance, field trips, lectures, and presentations by faculty and guest artists.

**Summer Dance** is an intensive program that offers pre-professional training in classical ballet with a modern/contemporary dance component. The ballet program, similar to the residential program, is based on long-established concepts and ideas taken from the Vaganova, Cecchetti and R.A.D. schools. The modern/contemporary dance component exposes students to theoretical concepts rooted in principles based on the Graham, Horton, Limon, and Cunningham techniques.

**Residential High School**

The public Residential High School gives junior and senior artistically talented high school students from all over the state the opportunity to concentrate on their skills in a supportive environment of artistic and academic excellence. Arts concentrations include creative writing, dance, drama, music, and visual arts.

The school is modeled as a master-apprentice community with arts faculty who are practicing artists. In addition to rigorous pre-professional arts training, students receive an intense and innovative academic education that fosters connections to the arts while meeting all the requirements necessary for a South Carolina high school diploma.
Student Life

The residence hall is more than just a place to sleep - it is a community of learning. The residential life program is designed to provide a rich living and learning experience and community environment conducive to personal and professional growth.

A Student Services Team, including Residential Life Coordinators (RLCs), Director of Behavioral Health and Intervention Counseling, Coordinator of Nursing Services, and Director of Residential Life, will be available to help provide a safe and comfortable environment outside the classroom. The Residential Life Staff oversees the day-to-day operation of the residential life program, and with administrative support, has responsibility for decision making in these areas. The RLCs live in the residence hall and are responsible for promoting the program by serving as:

- Administrators, by disseminating information and direction, as well as ensuring that safety and security procedures are met.
- Resources, by being informed about campus events, activities, and facilities, and communicating information to students.
- Guides, by directing students in correct behavior and protocol.
- Responders, by directing and assisting students with illness, injuries or emergencies.
- Advisors, by being available to respond to student concerns, issues and questions.

Student Life Offices

The Student Life Office is located on the main floor of the residence hall. This office should be the first point of contact for any student or parent concern. The office is staffed each day from 8:00 am until curfew. The Student Life Office may be reached at 864.282.3848.

Campus Safety and Security

Public Safety Staff are available on campus 24-hours a day. They can be reached at 864.282.3826. The Public Safety Director, who oversees safety and security for the school, can be reached at 864.282.3746 during business hours.

The campus Public Safety Office is responsible for:

- Safety and security on campus
• Emergency preparedness and drills
• Assistance in medical emergencies on campus
• Safety programming and training

Unauthorized visitors and unsafe or suspicious conditions should be reported immediately to Public Safety through the residence hall desk or at 864.282.3826.

Details of safety and evacuation procedures will be presented during student orientation and are posted in strategic locations on campus.

**General Campus Safety Precautions**

A conscious effort is made to match students that are from different parts of the state and in different art areas. However, there is also a random element to matching students. **Students may not select roommates for Summer Programs.**

Health and Safety
In order to meet the health, safety and cleanliness standards, room and hall inspections are conducted periodically. Roommates/suite-mates are equally responsible for the cleanliness, orderliness and

Medical/Dental Expenses
Payment of expenses for treatment outside of the school’s Health Center is the responsibility of parents/guardians. Most urgent care clinics, hospitals, and physician’s offices require payment at the time of the visit unless otherwise arranged in advance. Students should be prepared to make a co-payment or entire payment when necessary. A copy of covered students’ current health insurance card is required.

Health Care While at School
Students should inform the nurse in the event that they are ill during the school day. Students must check with the nurse prior to missing required classes and activities.

If a student becomes ill when the nurse is unavailable, he/she should report to the residence hall desk.

Parents/guardians will be notified in the event a student has a fever greater than 101 degrees Fahrenheit, 100 degrees Fahrenheit with additional symptoms, or if a referral/visit to an outside facility is necessary.

The nurse will perform first aid services and health care counseling, but cannot legally diagnose or treat as a physician does.

A licensed health and wellness counselor is available during posted hours for assessment and counseling only, focusing primarily on issues of personal and social development.
The nurse will aid students in making emergency and urgent appointments, and will arrange for transportation.

**Emergency Care**

It is required that a parent/guardian sign the emergency treatment authorization form allowing a student to receive hospital treatment immediately in the event of an illness or accident.

Parents/guardians of students taken to the emergency room will be notified. However, treatment will not be delayed if the parent/guardian cannot be located.

**Medical Records, Physicals and Immunizations**

The confidentiality of a student’s health history will be maintained in a manner consistent with medical, legal and ethical standards.

The school nurse will collaborate with parents, teachers and administrators to assure the artistic and personal success of the student.

All medical forms from the school nurse must be completed, including physicians’ signatures, and returned prior to the designated date.

**Immunizations**

A complete, official, South Carolina Department of Health and Environmental Control (DHEC) Certificate of Immunization must be on file prior to admission. This copy may be obtained from county health department offices. You may contact your local South Carolina Health Department or visit the web at www.scdhec.gov for a listing of required immunizations. Due to students residing in a dormitory environment, the meningococcal vaccine is recommended for all students.

**Notification of Medical Condition/Prescribed Medication**

Parents should notify the school nurse if a student is on medication and/or under a doctor’s care, or if there is any known medical condition. An individual medical emergency action plan can then be developed in collaboration with the student’s doctor.

**Supervised Self-Administration of Medications**

Students are not allowed to have over-the-counter or prescribed medications in their possession for self-administration. (Emergency medications may be given special consideration, but must be discussed with the School Nurse.) Improper use and possession of prescription and non-prescription drugs may be grounds for immediate dismissal.

All medication (prescription and over-the-counter) must be in
either the pharmacy container with approved label or the original manufacturer’s container. Inappropriately labeled medications will be discarded. All medications must be labeled with the student’s name.

All prescription and over-the-counter medications must be listed on the medication registry. Students will not be allowed to receive over-the-counter medication if the parent/guardian has not given permission on the medication registry.

Parents/guardians are responsible for supplying all medications. The following is a list of suggested over-the-counter medications to bring:

- Acetaminophen/Ibuprofen - for treatment of fevers, mild aches, and pains
- Antihistamine - for allergy-type symptoms
- Decongestant - for cold-type symptoms
- Cough medicine
- Anti-diarrhea medicine
- Menstrual cramp medication

All medications should be placed in a clear, plastic, zip-top bag labeled with the student’s name and taken to the Health Center at check-in.

The Health Center is unable to provide any general over-the-counter medication to students. Written permission from a physician to dispense any medications should be provided.

Prescription refills should be mailed to the attention of the school nurse.

All medication will be secured in the health center and supervised by the School Nurse. During times when a nurse is not available, Residential Life staff are responsible for supervision of self-administration of medications by students.

**Policy for Management of Communicable Diseases**

The South Carolina Governor’s School for the Arts and Humanities will comply with all federal and state laws governing the management of communicable diseases including the yearly “exclusion lists” published by the South Carolina Department of Health and Environmental Control (DHEC). These lists mandate conditions for which students must be out of school.
If a student’s illness is determined to be communicable, a room restriction or return home may be required.

Arrangements will be made to provide meals for those students too ill to be served in the dining hall.

**Food Services**

The dining hall, located in the center of campus, serves all student meals. Students having a food allergy, requiring a special diet or vegetarian meals, or having other specific dietary needs, should notify the School Nurse prior to enrollment. Utensils, dishes and trays must remain in the dining hall. Food may not be taken from the dining hall.

Stamps and other mail supplies should be brought to campus. The mailing address for all students is:
Custodial/Maintenance Services

Custodial and maintenance staff are responsible for the appearance and upkeep of the school’s public areas, such as halls, public restrooms and stairwells. However, students are asked and expected to clean up after themselves before leaving a public area. Cleaning services are not provided for residence hall rooms and bathrooms.

Students having a maintenance problem in their room or bathroom, or noticing one in another area of the residence hall or campus, should report it immediately to a member of the Student Life staff. Students should not attempt repairs on their own.

Lost and Found/Loss of Personal Belongings

Any item lost or found should be immediately reported to the residence hall desk. A lost and found repository is located in the residence hall. This location should be checked when searching for missing items. Parents/guardians should evaluate their homeowner’s coverage prior to their child’s residency on the campus. The Governor’s School’s policy covers only the property of the school. Replacement of personal items damaged or lost as a result of theft, vandalism, fire, water damage, natural disasters or other causes, is not the responsibility of the school.

When arriving on campus, students will be required to check-in and check into their rooms. Students must:

- Verify that all forms are on file.
- Receive a key for their room and a SCGSAH ID which must be worn at all times.

The following pages list policies governing conduct. This list is not all-inclusive. As circumstances change, rules of conduct may also change at the sole discretion of the school’s Administration. The circumstances of each situation are different. Therefore, the Administration may handle each disciplinary situation without setting precedent for future cases. Improper conduct of any type (including that not mentioned in this handbook) may result in disciplinary action, up to and including dismissal at the sole discretion of the Administration.

For each complaint received, this log shall indicate the name of the complainant, the date the complainant reported the allegation of illegal discrimination, the nature of the complaint, the name of the person appointed to investigate, and the result of the investigation.

Within one week of receiving a complaint, the coordinator shall assure that an appropriate school administrator investigates the
allegation. In most cases, this investigator will be the school’s Director of Public Safety. In consultation with the Dean, on a case-by-case basis, the coordinator may appoint another school investigator if it is determined that an investigation by the Director of Public Safety is not appropriate.

The individual investigating the complaint shall allow the complainant an opportunity to present his or her complaint directly to the investigator and shall allow the complainant to present any witnesses or other evidence. The investigator shall also talk with any persons and gather any evidence that he or she deems relevant to the investigation.

Within two weeks of receiving notice of the need to investigate, the investigator shall form a conclusion about the allegation based on the investigation. If the investigator determines that action is required to prevent the recurrence of illegal discrimination or to correct the effects of illegal discrimination, the investigator shall take such steps as are necessary to effectuate these objectives. (Disciplinary action will be taken in accordance with the steps outlined in the student code of conduct.)

Also within two weeks of receiving notice of the need to investigate, the investigator shall inform the complainant in writing of the result of the investigation. If the investigator determined that illegal discrimination occurred, this notice shall include an assurance that adequate steps have or will be taken to prevent recurrence and correct any effects of the illegal discrimination. This notice need not specify the action taken to prevent a recurrence or to correct the effects.

Any complainant who disagrees with the outcome of the investigation may appeal the matter by submitting a written notice of appeal to the Dean within five business days of receipt of the result of the investigation. This notice of appeal shall state specifically why the complainant disagrees with the result of the investigation.

Within two weeks of receipt of an appeal, the Dean shall review the result to assure the fairness and thoroughness of the investigation in light of the reasons of disagreement submitted by the complainant. The Dean shall also notify the complainant whether the result of the investigation will stand or be reopened for further investigation and correction. Decisions by the Dean shall be final.
Family Educational Rights and Privacy Act

The Family Educational Rights and Privacy Act (FERPA) requires that schools, with certain exceptions, obtain written personal consent prior to the disclosure of personally identifiable information from a student’s education records. However, schools may disclose appropriately designated directory information without written consent, unless parents (or eligible students; eligible students are those 18 or older) have advised the school to the contrary consistent with the school’s procedures.

The South Carolina Governor’s School for the Arts and Humanities has designated directory information to include:

- Student’s name
- Home address
- Campus email address
- Major field of study
- Date of attendance at the Governor’s School
- Grade level
- Participation in officially recognized activities
- Honors and awards received
- Photographs and audio/video recordings

The Governor’s School includes directory information in certain school publications, including playbills, publicity campaigns, graduation programs, and websites. This information can also be disclosed to outside organizations under these procedures. Such outside organizations may include, but are not limited to, the United States Armed Forces and colleges for recruiting purposes.

Violence/Assault

Violence or assault, including, but not limited to, physical, sexual or emotional, as set forth in state and federal law is prohibited. Any act of violence should be reported to any faculty or staff member immediately.

Bullying and Hazing

The Governor’s School prohibits bullying and hazing in any form. This includes, but is not limited to, action taken or intentionally created situations to produce mental or physical discomfort, embarrassment, harassment, ridicule or suffering. Any hazing activity should be reported immediately to the Residential Life staff, Public Safety, or any available faculty or staff member.
Privacy, Search, & Seizure
A student’s right to privacy is respected by South Carolina Governor’s School for the Arts and Humanities. However, the school has a responsibility to maintain the standards of safety and behavior that are reflected in our regulations and policies as well as local, state and federal statutes. For this reason, the school may authorize searches including, but not limited to personal belongings, residence hall rooms, mailboxes and other areas to the maximum extent permitted by law.

In accordance with state law, the Governor’s School prohibits strip searches of any type.

Automobiles
Students may not have automobiles or other motorized vehicles on campus, or within downtown Greenville, at any point during their program.

Communication Devices
Communication devices may only be used in non-instructional areas of the school, such as the residence hall and courtyard. Communication devices may not be used during class time, or in instructional spaces, including the library, performance halls and offices.

Public Performance and Events
Due to the performance elements associated with the SCGSAH curriculum, many school events are open to the public and/or broadcast via social media, streaming, and other platforms. Therefore, students’ public performances and related images are a required element of the school’s curriculum.

Off-Campus Excursions and Field Trips
Throughout the Governor’s School experience, students should remember that they are representatives of themselves, their home schools, and the Governor’s School. For this reason, all policies, procedures, and rules apply in their entirety for the duration of the program both on and off campus.

Other Policies and Procedures
All local, state and federal laws are supported by the Governor’s School. Violation of any law may be considered for internal disciplinary action as well as referral to the appropriate legal authority.
Introduction
The living, learning environment provides students with opportunities to develop maximally, not only in the arts, but as a person with strong character traits, integrity and a positive value system. This Code of Conduct provides a framework that encourages character development through accepting personal responsibility for making good decisions and taking positive action in personal and professional life.

The goal of the administration, faculty and staff is to provide students an optimum environment in which to learn, and find joy in making the right choices for their lives and work. Dedication and commitment to excellence in their work, idea exchange, and interaction with their peers and teachers may result in a higher level of maturity, success and joy in learning.

Willful and/or negligent disregard for state and federal laws, Governor’s School requirements, and the regulations outlined in this handbook can lead to lack of success, restriction, missed opportunities, dismissal and/or legal action.

Student Code of Conduct
Students are expected to respect the policies and regulations of the school. The Residential Life staff will orient students to behavioral expectations. Students will be redirected when not meeting these expectations. Behaviors that are damaging to the school’s sense of community may lead to consequences, which could include dismissal from the program. Parents are involved in all situations or events of student misconduct unless they are minor and resolved with redirection or guidance by staff.

Conduct that may warrant a greater level of intervention includes, but is not limited to: vandalism, actions with intent to harm someone, theft, possession of illegal drugs or alcohol, causing a fire or improperly tampering with a fire alarm, harassment, assault, possession of a dangerous weapon and threats to personal security or property. If a student is charged with such behavior, or other like
behavior, determined at the sole discretion of the administration, the following action is generally taken:

• The charge is investigated. This investigation may also involve outside law enforcement agents.

• Following this investigation, a written report may be made and an immediate meeting scheduled with the student and parents/guardians to discuss the report. This meeting may include appropriate law enforcement agents.

• The student’s parents/guardians are generally given two (2) days to respond to the report and a follow-up meeting is scheduled to discuss the action that will be taken. During the intervening time, the student is suspended from the school and remains in the care of the parents/guardians.

• At a final meeting, the action that will be taken by the school will be communicated.

• The school’s action does not preclude that further action may be taken by law enforcement agents.
CHAPTER 5

GREENVILLE
Greenville, South Carolina is located at the center of one of the nation’s fastest growing areas and is consistently ranked among the best places in the country to live and work. The roots of this community can be traced to a trading post many years ago, and later to the textile industry - Greenville was once known as the “Textile Center of the World.” The continuing economic success of the area provides support for its cultural and recreational resources.

With a major symphony orchestra, a community of higher education institutions offering extensive fine arts performances and exhibitions, various ballet companies, art museums, state-of-the-art concert venues, and one of the Southeast’s premier civic chorales, among other offerings, Greenville has its finger on the pulse of the arts.
